On 03/18/15 (S)Nathan Garcia represented himself to a female co-worker as an agent for the San Francisco Police Department who was planted at the San Francisco International Airport to conduct 'investigations' on other employees. Garcia used this misinformation to obtain favor with the co-worker so he could get her to meet him to discuss his 'investigation'. Investigators set up a fake meet with Garcia and interviewed him in regards to his intentions. During our interview consent was obtained to search Garcia's cell phone, vehicle and residence. While searching Garcia's vehicle we located child pornography, adult pornography along with hundreds of pictures of woman loading items into their vehicles at the Westlake Shopping Center and lower Serramonte Shopping Center. Garcia admitted to covertly taking these pictures of unsuspecting females as they were loading their vehicles or walking around on the street. The photos focused or zoomed in on the backside or buttocks of the women. Search of Garcia's cell phone turned up thousands of pornographic images and more pictures of women in parking lots or walking down the street. Some of the images were dated back to the year 2000.

Garcia has been charged with possession of child pornography. This flyer is provided as an informational for anyone who might be investigating similar complaints.
